

6 Research a Provider

Introduction to Researching Provider

CMS Net Web has information available for you to research service providers. These service providers can be grouped into two categories: Special Care Centers and other medical/hospital/dental providers.

This chapter will describe how to look-up information for medical/hospital/dental providers.

Objectives

At the completion of this section, you will be able to:

- View provider details for the providers who have a Medi-Cal number or a Denti-Cal number
- Research what an individual provider is paneled in for medical providers with a Medi-Cal number
- Find what SCCs are approved and identify each SCC member
- Find the level of service for an inpatient hospital
